

# <Tobunken/ASNET Seminar> Negotiating “Modernity” in a Private School at the Turn of the 21st Century Cairo

学校空間における「近代性」の交渉 - 2000年代カイロの私立学校を事例に

Private “Foreign Diploma” Schools at the turn of the 21st century Cairo are the symbol of the prosperity and the cutting-edge technology enjoyed in Egypt.

They are regarded to be the institutions that engineer Egyptian young generation into high-quality labors to the global market.

However, it is hard not to notice the authoritarian, exploitive, and corruptive manners excised every corner of the schools.

The presentation aims at analyzing such phenomenon as an expression of the particular social realities, namely a negotiation of “modernities” instead of an irony or a contradiction of the modernization.
